# Overview

# Outline

# Examples

- 1 Both cows and deer eat grass. (can treat *cows* and *deers* and *grass* like proper names)

# Examples

- 1 Both cows and deer eat grass. (can treat *cows* and *deers* and *grass* like proper names)
- 2 Fred has visited neither Amsterdam nor Calcutta.

# Examples

- 1 Both cows and deer eat grass. (can treat *cows* and *deers* and *grass* like proper names)
- 2 Fred has visited neither Amsterdam nor Calcutta.
- 3 Fred hasn't visited Amsterdam or Calcutta.

# Examples

- ① Both cows and deer eat grass. (can treat *cows* and *deers* and *grass* like proper names)
- ② Fred has visited neither Amsterdam nor Calcutta.
- ③ Fred hasn't visited Amsterdam or Calcutta.
- ④ Sally is a cheerful well-fed Democrat.

# Examples

- 1 Both cows and deer eat grass. (can treat *cows* and *deers* and *grass* like proper names)
- 2 Fred has visited neither Amsterdam nor Calcutta.
- 3 Fred hasn't visited Amsterdam or Calcutta.
- 4 Sally is a cheerful well-fed Democrat.
- 5 Al is the leader of the band.

# Examples

- 1 Both cows and deer eat grass. (can treat *cows* and *deers* and *grass* like proper names)
- 2 Fred has visited neither Amsterdam nor Calcutta.
- 3 Fred hasn't visited Amsterdam or Calcutta.
- 4 Sally is a cheerful well-fed Democrat.
- 5 Al is the leader of the band.
- 6 Ronald is the enemy of prosperity ( you can treat *prosperity* like a proper noun).

# Examples

- 1 Both cows and deer eat grass. (can treat *cows* and *deers* and *grass* like proper names)
- 2 Fred has visited neither Amsterdam nor Calcutta.
- 3 Fred hasn't visited Amsterdam or Calcutta.
- 4 Sally is a cheerful well-fed Democrat.
- 5 Al is the leader of the band.
- 6 Ronald is the enemy of prosperity ( you can treat *prosperity* like a proper noun).
- 7 Sue and Fred are avid admirers of Beethoven.

# Logic trees

- Show that the following expressions of logic are equivalent. Use truth tables.

$$\begin{aligned} & \sim (p \wedge \sim q) \\ & p \rightarrow q \end{aligned}$$

- Show that the following expressions of logic are equivalent

$$\begin{aligned} & \sim (p \vee q) \\ & \sim p \wedge \sim q \end{aligned}$$

- Show that the following expressions of logic are equivalent

$$\begin{aligned} & \sim (p \wedge q) \\ & \sim p \vee \sim q \end{aligned}$$
