# Overview

Introduction

Assignments, exams, grading

Introduction

Assignments, exams, grading

Why is it different?

# Outline

Introduction

Assignments, exams, grading

# Distribution

Assignments	50%
Quizzes	10%
Midterm	20%
Final	20%

# Assignments

1. Marked diagnostically (You generally get full credit if you turn in an assignment having made a sincere effort to complete it)
2. Model answers will be posted online; we will go over these in class.
3. You will be responsible for assimilating the material in the model answers and learning from your mistakes.
4. The heart of the course: If you can successfully execute the assignments, you've learned a lot of semantics.

# Midterm

1. One inclass exam at the end of the first half of the class.
2. Union of the types of questions that have appeared on assignments

# Final

1. Take home exam
2. Covers entire class
3. Union of easy homework problems

# Quizzes

1. Ten-minute quizzes distributed throughout the term given on Tuesdays
2. Covered:
  - ▶ material in your reading;
  - ▶ material in the assignment you have just turned in.
  - ▶ material from the previous week's assignment.
3. Notification the Thursday before the quiz

# Group assignments

1. Ideal size: (1-4)
2. Different backgrounds ok
3. Meet at least once outside of class for a working session
4. No group work on final.
